ABSTRACT

This paper discusses the philosophy of history and several figures with their respective thoughts on history. The philosophy of history is an important part of human efforts to understand the world of the universe. Through philosophical and historical awareness, humans are able to change and develop forward, through various creativity, methods, analysis, interpretation, inspiration, traditions and thoughts of several figures related to the philosophy of history. The purpose of this paper is to reveal the philosophy of history and some of its thinkers who have different views on history. The method used in this paper is a qualitative method in the form of literature study, which is obtained from books and other scientific journals that are relevant to this study.

Keyword: philosophy of history, views on history
